## *Kingdom Of Thunder Dragon*

Bhutan is cradled in the deep folds of Himalayas. A small country with amazing people, remarkable scenery and natural wonders have been hidden from the outside world from generations. A kingdom of mystery with one of the most exotic destination on earth, Bhutan, is a unique harbor for enthusiastic travelers. Bhutan is a mountainous place which is popular with Land of the Thunder dragon whose climatic conditions is unarguably amazing ranging from sub-tropical to even very cold along the Tibetan border.

Today when almost all parts of he world have seen a surge in tourist members, Bhutan has continued to follow a policy of regulated tourism in order to safeguard the country's natural surroundings, rich cultural heritage and the unique way of life for its people. Making Bhutan one of the least travelled countries in the World.

Come and explore the only one of its kind untouched wonders of Bhutan for yourself. Snow capped mountains, emerald green landscapes; fascinating wildlife and gentle people all wait for you. Experience the "Thunder Kingdom – Bhutan" with Trekking Trail Nepal.

# TIBET

*Roof Of The World*

Tibet, Known as the roof of the world is still a mystical place that few have dared to explore. It is an ancient country with ancient Buddhist culture, hidden valleys, artistic monasteries, breathtaking landscape, centuries old caravan trails and highest point on earth Mt. Everest, It is highest region in the world with average altitude of 16000 ft, (4,875 Meters) isolated by vast mountain ranges that form its northern, southern and western borders.

It is a land locked country with India on the west and South, Nepal Bhutan and Myanmar on South. It borders with Sichuan and Yunnan on the east, Qinghai and Sinkiang on the north, the Chinese proveniences. The inhospitable climate and different trail landscape, has made this country uninhabitable to all but the hardest of people. It is one of the world's least populated areas and large portion of the total land areas of 474008 square miles is uninhabited barren desert. Weather conditions and high altitude make it very difficult for growing no matter which and only the hardiest of plants and animals can survive. It has vast areas of land too cost and windswept for any vegetation to grow.

The largest region of Tibet, which covers almost half of Tibet's surface area is the northern plateau locally known as the Chang Tang. It is one of the most inhospitable places on Earth with low temperatures, lack of rainfall, high winds and sparse vegetation. On the western Border is the Karakoram Range.

## *The Country of Myths and Color*

India as all of us know is a very large country with diverse cultures and fascinating change of race, color, creed and places as we broadly travel across it. Most people however fancy India as a hot country with only places of historical weight and fantastical legends.

From Deserts to palm-Fringed beaches, rural village to sting cities, the magnificent Taj Mahal and cool hill Stations of Darjeeling and Sikkim, it's over 5000 years of history of conquest, raise and fall of great empires, is alive in Mughal palaces.

If its history you want India is full of it; the forts, abandoned cities, ruined, battlefields and monuments all have their tales to tell. If you simply want to lie on the beach there are enough to satisfy the most avid sound worshipper, if walking and the open air is your thing then head for the trekking courts of the Himalayas, some of which are as wild and deserted as you could ask for. If you merely wants to find the real India you will come face to face with every day trips on Indian trains and buses may not always be fun, but they certainly are an experience, India is not a place you simply clinically "SEE" it's a total "EXPERIENCE" an assault on the senses, a place you'll never forget. No one should miss the unique experience that is INDIA.
